PRESIDENT'S MESSAGE ***By: Walter G. Pichon III***

Ws ell, as a number of the membership knows, I did make it to the National Environmental Health Association Conference in Anchorage, Alaska May 9 though May 12, 2004. Along with the election of Jim Balsamo who was elected President of NEHA, the conference was very informative and this year a little more intense. By this, I mean that during the business, presidential, the association of sanitarians, and the regional meetings subject matter was brought up by leadership pertaining to the plight of the state affiliates, NEHA an the association of sanitarians. Those issues were State budgets, the training of new environmentalists by post retirees, and the agencies and retired environmentalists participating with universities and colleges along with the curriculum of graduates.

The certification test was another big issue. NEHA is in the process of redoing the national examination. There were many avenues suggested by different States to make the public more familiar with their prospective agencies. A number of them coincided with what LEHA does already, such as, the science fair, the clean up day, and the face to face exposure to our political leaders.

The LEHA's State Proclamation by the Governor, and the Senate Resolution was delivered and well received by NEHA.

The trip was worth going for information, the scenic view, food, and our own Jim Balsamo being elected President of NEHA. See you in St. Francisville. I wish the best to all of the membership and their families.

Walter G. Pichon III
President
